RE: Rozel Point Tanks, Closure of Administrative Field Order Docket # CWA-08-2001-48

Dear Mr. Wilkinson:

On September 17, 2001, I issued an Administrative Field Order to Thelmas USA, LLC regarding crude oil leaking from tanks near the Great Salt Lake at Rozel Point in Utah. The Order described emergency response actions for Thelmas to take to address the petroleum release. With the exception of obtaining EPA and Utah DEQ approval prior to off-site transportation and disposal of contaminated soils, Thelmas has satisfactorily completed all activities required under the Order for the crude oil spill. Accordingly, for administrative purposes only, I am closing out the Order. EPA reserves the right to seek penalties for violations of the Order requirement. In addition, any cost recovery requirements for EPA's response costs will be determined by the U.S. Coast Guard National Pollution Fund Center.

If you have questions, please contact me at (303) 312-6822. Thank you for your cooperation in this matter.

Sincerely,

Joyce M. Ackerman  
On-Scene Coordinator
